

## EZY Garden Products Raised Garden Beds

EZY Raised Garden Beds are manufactured by Patons, who have developed a reputation for making quality rain water tanks for over 30 years. Attention to detail and a quality product finish are important manufacturing goals set by the company.

**Now you can grow your own vegetables easily and comfortably and harvest the benefits!**

Using a raised garden bed has many positive benefits. Most importantly, you will avoid back breaking digging, soil will never become compacted or hard and you can grow quality plants in productive and water efficient soil.

Your vegetables will produce bumper healthier crops while you are conserving water, recycling organic household waste and having the fulfilment of feeding your family from your own home produce.

Using the “no dig” method, crop rotation is no longer an issue as you are continually adding and replenishing the soil with each new crop. Your soil does not need to rest between crops, so you harvest more vegetables all year round.

Paton raised garden beds can be placed anywhere in your garden, and can be stepped in to a sloping garden. They are also an attractive addition to your patio, BBQ or entertaining area which will be a great point of conversation with your friends.

Raised garden beds offer gardening opportunities for persons with restricted mobility, bad backs, young children and people with disabilities.

### Other Benefits

- Ideal for rural properties
- No more bending or kneeling
- Frost and wind protection for young seedlings
- Provides a barrier for snails, slugs and pets
- Water efficient gardening
- Can be easily positioned anywhere in your garden
- Easily netted for plant protection from birds

Herb Ring
